Mr. and Mrs. Paul Arrington of Charleston were visitors last week of Mrs. Mamie Dickson. They made a touring trip by auto.

A delightful entertainment for the young people will be held Friday evening at the home of Mrs. W. C. Davis, assisted by Miss Tora Bagnal and Miss Rita Huggins.

Mr. J. A. King, formerly with the Clarendon Motor Co., but for the past two months has been in Atlanta, spent a few days in Manning last week.

Married by Judge Windham last Saturday, Mr. King Parker and Miss Byllie Elizabeth Shoke, of Gable. Mr. Parker is superintendent of the bridge construction in Black River.

Mr. I. D. Peak left on Saturday for his new home in Augusta, Ga. As soon as he can find a suitable location Mrs. Peak will follow and they will establish their new home in that city.

The College Preparatory school will close June 3. Mrs. E. C. Allsbrook will attend the National Educational Convention which convenes July 4th, in Des Moines, Iowa, of which she is an active member.

Mrs. W. T. Lesesne, Mr. Theodore Lesesne Jr., and Miss Julia Wilson went through the country in automobile to attend the Pageant at Winthrop College.

Died yesterday at his home in Manning James McD. Richardson, colored. The deceased conducted a restaurant here for the past twenty-five years, and was respected by both white and colored.

Rev. L. B. McCord was invited to Columbia last Sunday to fill the pulpit of the First Presbyterian church of that city, therefore there was no preaching in the Presbyterian church here.

We are in receipt of an invitation from the Charleston Chamber of Commerce to attend the celebration of "South Carolina's Port" on June 7 and 8. This will be a great gathering and we hope to be present.

The Manning base ball association was organized Monday afternoon, and officers elected. About \$600.00 is due June first, but Mr. Phillips the secretary and treasurer asks that those that can will send in their money at once.

It will pay our readers to look over the advertisement of Weinberg Company which is on another page of this issue. This enterprising company have decided to continue their big sale for several days longer, ending Wednesday, May 18th. They have some big bargains to offer their many customers.

The Civic League will hold its regular monthly meeting, Monday afternoon, May 16th at four o'clock at the Court House. This is the last meeting of the League before our cessation of activities for the summer it is most urgent that every member of the League be present. Ladies please note the change of hour and be prompt.

The fats played the school team last Wednesday, the score was a tie 7 to 7. Mr. Joe Davis umpired the game and while he was mobbed at the end of the game, we must say he is some handler of the indicator. He was the boss of the situation as he kept a two foot gun by his side during play, and all disputes were settled easily by his assistant—the gun.

At The Pastime Theatre tonight will be shown "The Great Redeemer." This is without doubt one of the best pictures that has ever been shown on the screen. At the showing here on Monday many of those present expressed the desire to see the picture again. Manager Hanks immediately wired the producers to see if he could get the picture back for today. Hence the show tonight. The picture is based on a religious theme and is a sermon itself. We advise our people to see this picture for they will certainly appreciate the theme and the way it is expressed by the actors.

Miss Madeline Shope entertained at a lovely rook party last Friday evening in honor of her classmates of the eleventh grade.

The living room and dining room were thrown into one large room, which was beautifully decorated with sweet peas, pansies and Dorothy Perkins roses.

The class colors were tastefully carried out in the refreshments. The block cream of green and gold, also etc, cake which was iced with green and gold. There were five tables of rook. Those present were: Misses Elizabeth Creech, Roleta Berry, Lucie Holiday, Grace Thames, Mary Rigby, Lynne DuRant, Elizabeth Spratt, Lena Rawlinson, Lucille Rawlinson, and Mary Sue Wilson. Messrs Laurens Wilson, Alston Davis, Robert DuRant, Ikey Bagnal, Charlie Davis, Charles Wilson, Willie Bradley and Clayton Luce. Mr. and Mrs. Helms and Mr. Phillips.

NOTES BY THE COUNTY DEMONSTRATION AGENT

Handling Young Pigs

Pigs may be weaned from eight to twelve weeks of age. They should weigh around forty pounds each at this time, and be eating well. It does not pay to take the pig away from its mother too early, as it is more than likely to be stunted.

A few weeks before weaning, they should be taught to eat by providing feed in a separate trough. The ration for the young pigs at this time should be a good quality of wheat middlings or ground oats (hulls sieved out) made into a slop with milk if possible.

A few days before weaning, reduce the feed of the sow. This will slow up the milk flow, and prevent udder trouble. At the same time increase the feed of the pigs. In this way the pigs will scarcely notice the weaning. If the sow is in thin flesh, do not breed her right away, but feed her in good condition.

After weaning the method of feeding will depend upon your plans. Pigs that are to be marketed in a short time require heavy feeding. Those that are to be carried along and fattened later on peanuts or velvet beans and corn will not require so much feed. In either case rye, rape, bermuda grass, burr clover or other pasture should be available. Good pasture will reduce the cost of production from one third to one half.

Pigs that are to be pushed for market should be given four to five pounds of feed daily for every one hundred pounds live weight. Any of the following mixtures are good.

lowing mixtures are good. Nine part corn to nine part tankage; six parts corn to one part soy bean meal; corn and wheat middlings half and half.

Pigs to be carried over may be fed the same mixtures in something like one half the quantities mentioned above. They should by all means, get enough feed to keep them growing and in a good, thrifty condition. It is unprofitable to merely maintain them at a constant weight.

Provide plenty of pasture and forage, and feed enough grain to the pigs gaining at all times.

Top or Side Dressing Cotton Under Boll Weevil Conditions.

The custom of using side applications of nitrate of soda or other nitrogenous fertilizers on our cotton has, in the past, been fairly general. I believe that this has been generally profitable, especially when the side application has not been delayed too long.

But now with the boll weevil upon us, I have serious doubts regarding the advisability of top dressing our cotton crop with nitrogenous fertilizers. We realize that when the weevil has multiplied sufficiently that he is going to get practically all the squares that our cotton can put on. It then behooves the farmer to get as much fruit made as he possibly can before the maximum infestation is reached.

Anything, then, which delays the maturity of your cotton, will in my opinion do actual damage; and nitrate of soda top dressings are apt to keep the cotton in a very growthy condition and delay the fruiting process.

Therefore, if you are going to top dress your cotton crop, do it at once. That is, as soon as possible after the cotton is chopped out.

NOTICE OF DISCHARGE

I will apply to the Judge of Probate for Clarendon County, S. C., on the 13th day of June, 1921 at 11 o'clock A. M. for Letters of Discharge as Guardian for James Bradley Moore, formerly a minor.

NOTICE

The making of tax returns for town purposes on April 1st has been neglected by the citizens, and at the regular meeting of Council on May 2nd, the time for making these returns was extended until June 15th, after which the penalty of 50 per cent will positively be applied.

May 10th, 1921.

It is estimated that of 24,000,000 school children in the United States 8,000,000 have defective eyes. That is one of every three children. That proportion is probably larger than found with the children in Clarendon County, but certainly there are many who need spectacles that are not wearing them.

The child's chances for getting the best from its school advantages are few if it's vision is poor. You can have its eyes properly examined and fitted by

DR. J. E. ARANT,
OPTOMETRIST

MANNING, S. C.

To the motorist who has quit guessing about tires—

ALONG about this time of year a man finds his motor- ing neighbors getting anxious about their tires. With folks expecting old tires to "pop" any minute, there comes the question of what kind of new ones to buy. U. S. Tires are answering a lot of questions like this nowadays.

The U. S. Tire following embraces two kinds of tire buyers.

Those who started with quality first, and have never bought anything else but the *quality standard tire*.

Those who came to *quality first* only after dabbling with "bargains," "rebates," "job lot" and "surplus stock" tires.

Getting one hundred cents value on the dollar in tire buying is a straight-forward business proposition—not guess-work or a game of wits.

The most essential man for you to know today is the local U. S. Tire dealer who is *concentrating* on a full, completely sized line of U. S. Tires.

He gets his U. S. Tires straight from his neighboring U. S. Tire Factory Branch—one of 92 such Branches established and maintained all over the country by the U. S. Tire makers.

He is the man who can give you fresh, live tires—not stuff shipped to him from some point where it did not sell, but *new* tires of current production.

Giving the same quality, selection and price-advantage to the owner of the medium weight car as the big car owner gets. With equal service and buying opportunity whether he lives in the smaller localities or the greater centers of population.

THE U. S. NOBBY TREAD

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—two diagonal rows of oblong studs, interlocking in their grip on the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

"The most essential man for you to know today in the tire business is your local U. S. Tire Dealer."
